*The following story, printed in the Comox Valley Record, announced the merger of the Anna Jorgensen and Donna Cunliffe teams.*

## Leading real estate teams merge to serve Comox Valley

An amalgamation of two of the Comox Valley's leading real estate teams led by Anna Jorgensen and Donna Cunliffe of Coast Realty Group was announced recently.

The combined team, named simply Anna Jorgensen/Donna Cunliffe, has six licensed realtors and a full administration staff.

The strengths of the teams compliment each other in the merger.

"We have lived here for over 30 years and between (husband) Brent and myself we have a combined 30 years of real estate experience," says Cunliffe. "A large number of business contacts have resulted over those years, and together with our many friends and associates we have met, we have developed a huge client base. The networking and referral business our clients have sent our way has been amazing and very much appreciated.

"We would like to think we have earned our clients' confidence through honest hard work and good service," adds Cunliffe.

"With the merger we know we can offer the best in service."

Jorgensen insists this will be the case.

"I would rather see our clients over-serviced than be caught wanting. Our realtors and administration staff will be kept in tune with the combined business of our whole team, so our players can cover all of our clients' needs," she said.

"Communication will be the key to success, both internally with the team and most importantly with our clients."

Jorgensen's clients have long been used to receiving "state-of-the-art" technological marketing and the team will continue to market developments aggressively.

Past successes include Somerset Lane, Britannia Place and Corinthia Estates in Crown Isle, as well as The Tides and SunRidge Town homes.

"We have a few projects coming on stream," says Jorgensen, "but our main focus will always be residential housing."
